

## Bradbury Support Service

We provide specialist accommodation-based, domiciliary care and supported living services to visually impaired adults with additional disabilities living in Honiton, Devon.

### Our Service

Visual impairment rehabilitation, social inclusion and quality of life are fundamental to the quality services we provide.

We adopt a person-centred approach, supporting each individual to identify their own abilities, needs and goals. After an initial assessment period, a tailored support plan is created which meets the individual's needs, reflects personal choices and enables personal outcomes to be achieved. Plans are regularly reviewed with each person and their advocates to accommodate changing needs and aspirations.
